Richard:

I am going to stay in the background for a bit.

Let me know what you and Rick end up doing....

Larry

Subject: RE: ACT! License Issue

Nope. Same result as with 2014 and 2015. The only scenario I have found that is supported by ACT! is to use Citrix XenApp. It seems like a viable solution but will cost some money. I am about to call Rich and share the bad news.

Thanks,
